a rapidly declining scale of prices was the

natural result. There was a feeling of

doubt aroused in the minds of speculators

by the general skepticism expressed by

public commentators over Monday's rise, which was universally attributed to arti-

ficial manipulation. The weekly report

from the Weather Bureau on the crops,

showing the lack of moisture in the corn

belt, caused renewed apprehension regard-

suffered accordingly. The nonengagement

of gold for export Monday, which caused

some feeling of relief in the then optimistic

Corn Also Lost Heavily, but Oats Were Relatively Firm-Provisions Steady on Light Hog Receipts.

CHICAGO, July 24.—Bearish foreign news and an apathetic outside attitude were largely responsible for weakness in wheat to-day, September closing 11/2@15/sc under yesterday. Corn closed 1@11/sc down and oats 4c depressed. Provisions at the close were unchanged to 5c down.

Wheat had not recovered from the injection of foreign bearish news when the market opened to-day, and September accordingly began the session 360%c to 1/6 %e down at 76%@76%c. The crowd figured that with little export business here, probable large Southwest receipts and the increased Russian and Danubian shipments announced yesterday, wheat was not worth prevailing prices. Following this the market, on covering by shorts for profits and a little scattered buying, rallied to 76%c. It slid off with the greatest ease, helped by the decline at Paris, reports that France would raise wheat enough for her own consumption and that Russia had a large supply of hold-over wheat, and by lack of outside support. September early declined to 75%c, rallied to 76%@76%c, lost its hold again and then, on Bradstreet's announcement that the world's visible had decreased 2,000,000 bu, recovered to 76%c. This bulge, like the others, was lost and the close found the market at its weakest, September 11/201%c under yesterday at 751/4c. Winter wheat points received less wheat than the same day last year, 413,000 bu, against 435,000 bu a year ago. Market firm; Western, at mark, 11@13%c for average lots; Western, loss off, 15%c. coffee, city prices, Ariosa, 13.75c; Lion, 12.25c; Jer cash sales here were put at 60,000 bu. Clearances at the seaboard, in wheat and flour, were equal to 327,000 bu. Primary receipts aggregated 794,000 bu, against 634,-000 the corresponding day last year. Minneapolis and Duluth reported 234 cars, compared with 204 last week, and 286 a year ago. Local receipts were 291 cars, 66 of con-

tract grade. Corn was quiet and lower early, but steadied after a good concession in prices. There were heavy rains in the best growing States. Another encouragement to the sellers was to be found in the talk that the export demand, which has been very excellent, was showing signs of exhaustion. Some exporters were credited with reselling here. The prices suffered over 1c early and therafter fluctuations were narrownot much pressure either way. September sold between 39c and 38c and closed 1@114c down at 281/2c. Receipts here were

Oats were relatively firm, supported by the Iowa report that oats in shock and in stack had suffered from the incessant rains. The Northwest was a moderate seller, while there was some good local support. September sold between 231/@23%c and 23@23%c. closing 4c down at 23%c. Receipts were 197 cars. Compared with the grains, provisions were firm, easing but little in sympathy with the grain weakness. The market felt

the sustaining influence of light hog receipts and liberal shipments of produce. Trade was quiet. September pork sold between \$12 and \$11,87% and closed unchanged at \$11.921/2; September lard between \$6.771/2 and \$6.871/2, closing 5c lower at \$6.771/2, and September ribs between \$7 and \$6.921/2, with the close 21/2c depressed at \$6.95. UNION STOCKYARDS, INDIANAPO-LIS, July 24.-Cattle-Receipts, 500; ship ments small. The receipts of cattle were not large, but of fair volume for this time in the week, and the quality generally was satisfactory. The market opened with all buyers participating, and with a good demand the trading was active at an advance of about 10c in prices compared with the close of last week. The arrivals included a shipment of 56 cattle from H. C. Morgan, one of the most extensive feeders in this State, that averaged 1,595 pounds and sold to a local killer at \$5.50, which was considered a good price for that weight cattle. Steers weighing around 1,050 pounds sold at \$4.60@4.90, as to quality, helfers sold as high as \$4.65, cows at \$4.25 and calves at

The hog market opened with salesmen asking rather higher prices, and on that account there was no really urgent demand at the start. There was a very fair inquiry, however, from shippers, and later, when salesmen had agreed to accept yesterday's prices, all buyers were in the field and with good competition the early receipts were soon exhausted. In some instances sales show possibly a little more strength than was considered the market for equal kinds yesterday, but generally dealers did not report any higher prices. A few loads arrived after the market was practically over, and for those salesmen had to accept about 21/2c lower prices than early. A good clearance was made. The bulk of the sales was made at \$5.40@5.421/2, with prime heavy selling as high as \$5.45. Quotations:

rived for the regular auction sale to-day. which is an average supply for this time in the year. As usual during the summer season, the offerings included few strictly high grade animals, but the quality was as good as the average of chunks and business horses. A late train delayed Eastern buyers, and the auction did not begin until a late hour. The attendance of buyers was not large, and there were apparently no urgent orders to fill, but first sales of the better grades did not show any quotable change in prices compared with last week. No additional strength developed as the trading progressed, and in fact later sales, at least in some instances, were considered lower than last week. As usual recently, most of the offerings were taken by Eastern dealers, but quite a number of good export chunks and harness horses were reported for foreign account. Sales of coach horses were reported at private as high as \$225; good drivers sold as high as \$150, chunks at \$110@140, and less desirable workers and drivers from \$60 to \$100.
